

# A floor without megaloc aqua protect is like San Francisco without the Golden Gate Bridge.

The lock on the floor.

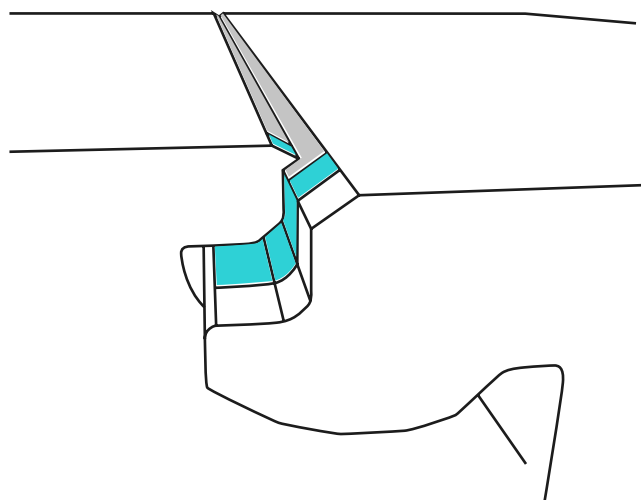

**megaloc**  
aqua protect

## New waterproof fold-down installation system for laminate floors.

megaloc aqua protect is so easy to install and give you full protection. This unique system provides reliable water resistance by preventing water from entering the joints.

- ✓ Secure and easy installation
- ✓ Reliable and proven spill protection
- ✓ Worry less living

### The advanced new system from the megaloc family

Our unique new system is the successor to the long proven megaloc system. It offers maximum protection against everyday spills. A safe and carefree life starts with a secure and fast installation thanks to megaloc aqua protect.

- ✓ Improved HDF with reduced swelling
- ✓ Protective sealwax on the virgin HDF
- ✓ Advanced megaloc protect locking

### Excellent results according NALFA

The NALFA test is a standardized method to assess the water behaviour of laminate flooring. The megaloc aqua protect system enables protection against edge swelling and ensures a durable floor to enjoy.

Daily use, cleaning and splash situations can consequently no longer damage the floor.
